## ABOUT

Launched in 2009 and fully refitted in 2022, Riana is a custom-built 42-meter, 220-ton luxury sailing yacht with the elegance & grace of the traditional sailing yachts of yesteryear but with all the modern amenities one may expect.

## FUEL EFFICIENCY = SUSTAINABILITY

Riana Yacht is in the top 30% (by LOA) of all yachts in the world and arguably outperforms practically all others in its class & size with its combination of cruising speed vs. efficiency vs. economy vs. comfort and volume. Exuding quality, comfort, luxury, space and style, Riana Yacht's design & naval architecture boasts the highest commercial technical and safety standards as well as being profoundly fuel efficient with a cruising range of circa 800 nautical miles at a cruise of circa 10 knots at an outstanding fuel burn of circa 75 litres per hour inclusive of generators.

Fuel consumption varies based on weather and sea conditions.
